Concrete Anchor Waiver (Tents)

Main Events Party Rental has explained to customer that all tent rentals are to be staked at all times for proper anchoring. Customer has stated that they wish to setup tent using concrete anchors,, and therefore waive all liabilities and coverage offered by Main Events Party Rental. Customer understands that concrete anchors do not offer adequate anchoring for tent in high wind situations, and is hereby accepts all responsibility for all damage to equipment and property; as well as all physical harm or death to occupants, due to anchoring requested. Tents that are installed without feet staked should not have sidewalls installed due to feet sliding. Customer has been notified that sides added to tents with un-staked feet takes away from the wind rating of the tent.

Upon signing this agreement, I _____ representing
_____ acknowledge that I understand all items listed
above, and waive all coverage from Main Events Party Rental.
