

Greyhound Races

First, players place their bets on whatever dog they like best.

Dealer spins a Three Dice "Birdcage" to determine how to move the dogs. Example: If all three dice come up as a 5, the number 5 dog moves three spaces. If two dice come up as a 4, and one dice comes up as a 6, the number 4 dog moves two spaces, and the number 6 dog moves one space. The first dog to the end wins!

**To make the game more exciting, it helps to have a dealer who tries to resemble the announcer at the actual dog tracks.

Only the dealer is to spin the "Birdcage," or to move the dogs.
