PARTY & EVENT RENTAL

Over & Under

This is a popular party game, usually played with three to six players. It can be played with either a dice tray, two dice and a shaker cup, or “birdcage.”

Players are betting on a single roll of the dice, and action is fast and easy to follow. Bets can be placed to win if dice total is “Under 7” or “Over 7.” Both of these bets pay even money.

Players can also bet on the dice total to be exactly “7.” On this bet, odds are paid 4 to 1. This means the players chip stack, with three extra stacks added.

Players can also bet on “Long Shot Doubles.” Long shot doubles pay 15 to 1. When betting on one of the double dice combinations, the players betting chip must be placed clearly within any of the six double areas of the lay down. **PLAYER IS BETTING ON THAT EXACT DOUBLE ONLY.**

Only the dealer handles the dice or the birdcage.
