Big Six

The Big Six dice wheel is the key to all of the fun and excitement of this game. The utter simplicity of the game has made it a favorite of the casino players for many years.

The player places his chip stack in one of the six betting sections (1, 2, 3, 4, 5, 6)

The wheel is spun after all bets are down. When the wheel stops, the pointer indicates the winning section. Each section has a combination of three dice values, from 1-6

If the values in the winning section is "3" the player wins EVEN MONEY.

If "Doubles" appear in the winning section, (Two 3's for example), the player is paid DOUBLE HIS BET.

If "Triples" appear (Three 3's for example) the player wins TRIPLE HIS BET.

The Dealer collects all losing bets first, and then pays winning bets.

After paying all winning bets, the dealer declares the game "Open for the next round," and the player places their new bets.
